

What should I already know?

- How to use a variety of objects and mouldable materials to make a 3D piece of art.

What will I know by the end of the unit?

- Know that clay has been used for thousands of years to make useful objects as well as art.
- Know that clay is a natural material found underground.
- Know that clay is malleable but goes hard (or sets) once it dries.
- Know that clay can be pinched, coiled or flattened into slabs to make objects.
- Know that clay can be indented (scored) to imprint patterns on it.

Vocabulary

Clay

Pinching

Coiling

Slabs

Malleable

sets

What skills will I have developed?

- Rolling, pinching clay
- Scoring into clay with clay tools
- Painting onto the clay
