at Home

4th October 2021

What's going on this week?

Encouraging people to use buses more often is to be a central part of the Government's plan to reach net zero by 2050. Bus stops will be heated and have changing rooms and Wi-Fi in a bid to create eco-friendly park and rides for cyclists. They will also act as a focal point for cyclists, electric car drivers and rail commuters to switch easily between different modes of transport, with bosses calling the new stops mobility hubs.

Things to talk about at home...

- 🍏 Where is the nearest bus stop or train station to where you live? What is it like? Do you use it?
- 🍏 What is public transport like in your local area? What is your preferred type of transport?
- 🍏 Do you think mobility hubs will make more people use public transport? What would you like to see in them? E.g., shops, services, facilities etc.
