

What should I already know?

- Types of weather- rain, snow, wind, sun, hot, cold.
- There are places similar to where we live and there are places that are different.

What will I find out?

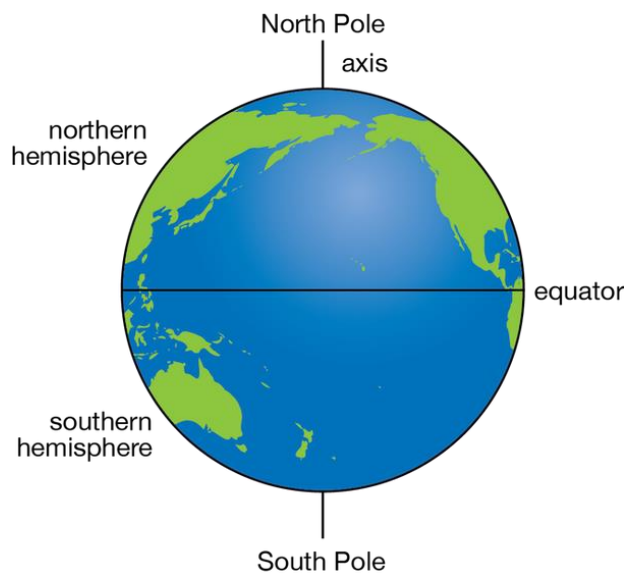

- The **7 continents** are: North America, South America, Asia, Africa, Europe, Australia, and Antarctica.
- The **5 oceans** are: The Pacific Ocean, Atlantic Ocean, Indian Ocean, Arctic Ocean, and Southern Ocean.
- The **equator** is an imaginary line around the middle of earth.
- The **North Pole** is at the top of the Earth.
- The **South Pole** is at the bottom of the Earth.
- Places near to the equator are hot.
- Places near to the poles are cold. They are furthest away from the equator.

The Sahara Desert is hot.

The Arctic is cold.
