

What should I already know?

- You will have created repeated patterns using objects, in Year 1.

What will I know by the end of the unit?

- You will know that printing means to transfer an image from one surface to another, which can be repeated.
- Know that string can be glued to a flat surface in a shape of our choosing and then painted over to create a block for printing.

Vocabulary	
Block	The flat surface for the string to be stuck onto
Design	The drawn pattern to be copied with string
Template	The print block ready for printing from
Print	The transfer of colour from the block to the paper or other flat surface
Transfer	The paint from the print block to the paper or other flat surface

What skills will I have developed?

- Drawing skills – needed to create a simple design;
- Fine motor skills – to wind the string along the lines of the drawn design
- Painting skills – needed to paint the paint onto the string design
